

## Blossom tree paintings at The Old Downs Residential Care Home

Last week our residents at The Old Downs Residential Care Home enjoyed using their art skills to create some beautiful paintings.

Our residents **used sponges and washing scourers to make special painting effects** for the summer blossoms on their trees - everyone was keen to see how the different effects would work.

Our residents really enjoyed this activity, using their own skills to design their pictures and seeing the results.

*We think they are all picture perfect – well done everyone!*
