

Testing the senses at The Old Downs Residential Care Home

Our residents got their hands dirty with a new sensory activity here at The Old Downs Residential Care Home last week!

We challenged them to test their senses; Can you describe the feeling of crumpled **autumn leaves**? How does it feel to stick your hand in a **bowl of flour**?

It was a really interesting and interactive activity and our ladies and gents had a good giggle putting their hands in **slime**!

Great fun!

Testing out the leaves!
