

The Old Downs Residential Care Home residents enjoy garden centre trip

On Tuesday 14 June a group of our residents and staff from The Old Downs Residential Care Home took a minibus trip out to a local garden centre to buy plants for our garden.

We bought a range of **vegetable and herb plants** including tomato, cucumber, courgette, aubergine, parsley, thyme and lavender.

On our return, our residents planted our new purchases – *and we're very much looking forward to watching our crop grow!*
